

Lift Truck Operations: Industrial Masted (below 5 tonnes) Refresher

At a glance...

Training (with Assessment)

Duration:	1 day
Delivery Method:	Classroom and practical observation and assessment
Prerequisites:	Learners should attend the course with: Appropriate PPE for weather/climate e.g. overalls, wet weather clothing, footwear and hi-visibility clothing as appropriate Notebook and pencil Calculator.

Introduction

These courses are for anyone who uses or will be using an industrial masted lift truck in either the land-based or construction industry.

The finer details

The courses will allow you to develop the skills and knowledge required to operate the industrial masted lift truck safely and with confidence.

Who should attend?

These courses have been produced for learners wishing to complete either Lantra Awards training or progress to a lift truck qualification in:

- Level 2 Award in Lift Truck (Counter Balance) Operations (QCF) For further information on training requirements refer to the HSE Approved Code of Practice and guidance document – “Rider-operated lift trucks: Operator training and safe use”.

The purpose of the re-assessment/refresher/conversion course is for

operators who have had formal basic training to be brought up to speed with current legislation and procedures, iron out any bad practice and hone skills for re-assessment.
